Yes We Still Have Time

In this **Lugas Syllabus** Solo Exhibition, the artist would like to convey a message to everyone through his artworks that we will keep striving forward regardless of the current situation.

All the good may unfold when " I see you" through the artworks and also seeing the artworks through your view. The story shall begin repeatedly, for the upcoming journeys ahead that we will keep going through. Seeing the future through belief for thousands of memories. *Yes, we still have time.*

LUGAS SYLLABUS

(born in 1987, Indonesia)

Lugas Syllabus is a contemporary emerging young artist from Indonesia. He is widely known for his paintings and sculptures that address the ironies and contradictions in modern and contemporary society. Woven into his pieces are narratives and iconography from pop culture, media, and technology; coupled with memories and folklore.

Taking socio-political observations, he weaves his own narratives, crystallizes it through his iconography, and unravels his own contexts of astonishing scenarios, characters, tensions, and relationships. The viewer becomes disoriented, unsure of their humor or gruesomeness, as they are absorbed and settled into the nebulous logic proposed. Much like the interconnected world we now live in, his works channel the hyper-distraction that reflects our current modernity, making one distracted and fixated.
